## Invitation Letter

**Welcome to join Asia-Pacific Robotics Championship 2011**

**-----Full of engagement, challenge, passion**

We are pleased to announce that Asia-Pacific Robotics Championship 2011 is going to be held in Taipei during 11-13 November, 2011. Welcome to join this Asian great event!

Asia-Pacific Robotics Championship is an international event which aims to promote robotics education to young students in Asia-Pacific region. It nurtures young students' interest in Science, Technology, Engineering and Mathematics (STEM) by providing interactive competition platform with designable and programmable robots; also, it reinforces students' real-case solving skills and teamwork spirit by providing hands-on experience and idea-sharing community. It is full of engagement, challenge and passion. It has been successfully held four competitions in the past: 2007 in South Korea, 2008 in Singapore, 2009 in Australia and 2010 in Hong Kong.

**Event details:**

**Date:** November 11-13, 2011

**Location:** Taipei Yong-Le Elementary School

**Address:** No.266, Sec. 2, Yanping N. Rd., Datong District, Taipei City 103, Taiwan

**Event:**

1. VEX Robotics Competition
2. BDS Robotics Competition
3. BDS Humanoid Competition

**Registration deadline:** Oct 8, 2011

### Asian Robotics League Introduction

Asian Robotics League (refer to “ARL”), a non-profit organization originated in Hong Kong, is sponsored by professors, Robot enthusiasts and Industrialists who are from China, Hong Kong, Taiwan, Korea, Singapore, Japan and Malaysia. Aims at:

1. Integrate educational resources in Asian countries and regions, learn advantage from each others; create localized educational activity platform to teenagers, the platform is international standards;
2. Through organize robotics competition and seminar, let more young students understand robots, love robots. Popularize modern scientific knowledge to youth, train more youth to be the professional in robotics in Asia-Pacific countries and regions.
3. Strengthen quality education of the youth in Asia; inspire the youth to love and devotion in science and technology; enhance the sense of innovation and practical ability of the youth, encourage them to become a robotics engineers in the future..
4. Promote academic exchanges from different countries and regions; highly recommend industrialization of scientific research; enhance the technology and international core competence of national and regional.
5. Push Asian robotics activities into international youth activities.

The first Asian Robotics League Directors’ meeting held in Hong Kong in 2007, who are from Professor of robotics and industrialist in China, Hong Kong, Taiwan, Korea and Singapore.
